

MEDICATION REFILL REQUEST

IMPORTANT CHANGE

EFFECTIVE MARCH 10, 2008

Dear Patient:

The way you request a medication refill has changed, please read the following carefully.

1. To request a medication refill you must call the pharmacy where you originally had the medication filled.
2. Be prepared to give them your name, the reference number on the bottle, the medication name, the doctor's name, and the office's fax number listed below.
3. Our office fax number for refills is 215-923-1089.
4. Once the pharmacy has your information they will contact our office for approval.
5. This approval process can take up to 3 business days to complete.
6. After 3 business days, please check with your pharmacy for pick up of your refill.

Requests for narcotic or new medications will not be filled; these will require a doctor's appointment.

Again, you must call your pharmacy for refills. The fax number for medication refills is 215-923-1089.

Thank you for your cooperation.
